12th November 2010

We have been using Clean Slate for the last few years to clean our windows, so when our last cleaning company turned out to be un reliable and inefficient we asked Clean Slate to come in and take over the whole cleaning contract.

The cleaning has been to a very high standard, with issues that have arisen being resolved quickly and efficiently. The staff are all polite and friendly and the level of customer service from both Clair Wood and Michelle James is exceptional. They are both quick to attend our site should I require them to and all requests are actioned very quickly and professionally.

Clean Slate has built a very good working relationship with Draka and I would have no hesitation in recommending them.

Kelly Harrington
