We first used Clean Slate when our own cleaner was on holiday. We liked them so much that when she decided to reduce her hours we had no hesitation in asking Clean Slate to take over the daily cleaning at our main surgery.

We have found everyone at Clean Slate to be friendly, flexible and very efficient. The standard of cleaning is exceptional and has been commented on by both staff and patients. If we ever have any concerns it is easy to raise them and they are acted on immediately. And we don't have to worry about holiday cover anymore!

We have yet to find anything they don't do well or that we would want to change.
