Chartwell is a centre of excellence for the body repair of prestige marques such as Aston Martin, Ferrari and Bentley to name a few. Our current facility and head office on Pride Park in Derby demonstrates the high level we operate at and has been hailed as the best in the UK by industry experts.

The cleaning of our building is critical to our customer experience and that is why we chose CleanSlate and continue to use them ongoing.

CleanSlate share our values, understand our business and operate transparently and honestly. This is not only refreshing today but gives us confidence that we have the best value solution for our needs.

I have no hesitation in providing my ongoing recommendation to use CleanSlate for your cleaning needs and would be happy to speak to you should you require.
